Mission & Vision

Our mission is to empower students and teachers with yoga-inspired exercises to promote lifetime wellness. Our vision is to make yoga available in all schools so that students and teachers develop body-mind awareness and the ability to nurture their own well-being. Every district and every school is different. There are many moving parts to consider. Schools can be a frenetic place. Since we have had the opportunity to work in many school districts in the country and around the world, we are familiar with some of the challenges that many schools are facing today. We usually suggest calling to set up an appointment for a free 45-minute consultation (as suggested above) so we can LISTEN and hear what your specific needs and challenges are and how we might be able to help address them. We have worked with both large and small school districts, urban and rural, high-poverty, and well-to-do schools. We have found that stress is no respecter of persons. We may just be stressed for different reasons. We have met plenty of well-paid, stressed-out teachers. Yoga tends to be an "equal opportunity," since being able to breathe is the only prerequisite. If we are unable to help you, we may be able to recommend someone who is more uniquely suited to your situation.
